01

A small place to read together.

CHAPTER

01 / Establish the purpose

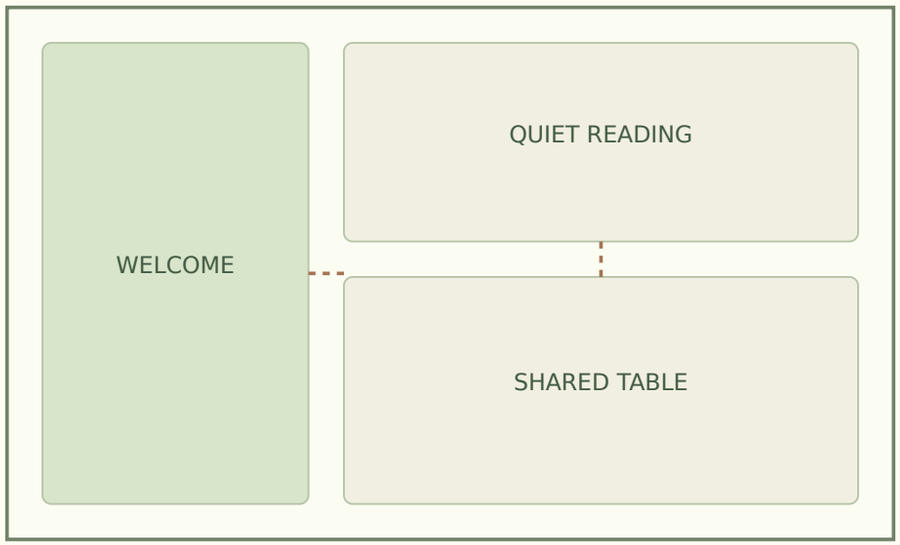

PROPOSED REVIEW ROLE

Project convenor

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 1 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

OPEN SHELF is a fictional concept for an adult community reading corner. It connects a spatial idea to responsibilities and unanswered questions. The illustrations and sketches are discussion aids, not an approved building or service plan.

Concept only / no real site or participant study.

NEXT ACTION / REVIEW QUESTION

Name the question this proposal should answer.

What is the smallest useful purpose for this corner?

Define the promise before the furniture.

CHAPTER

01 / Establish the purpose

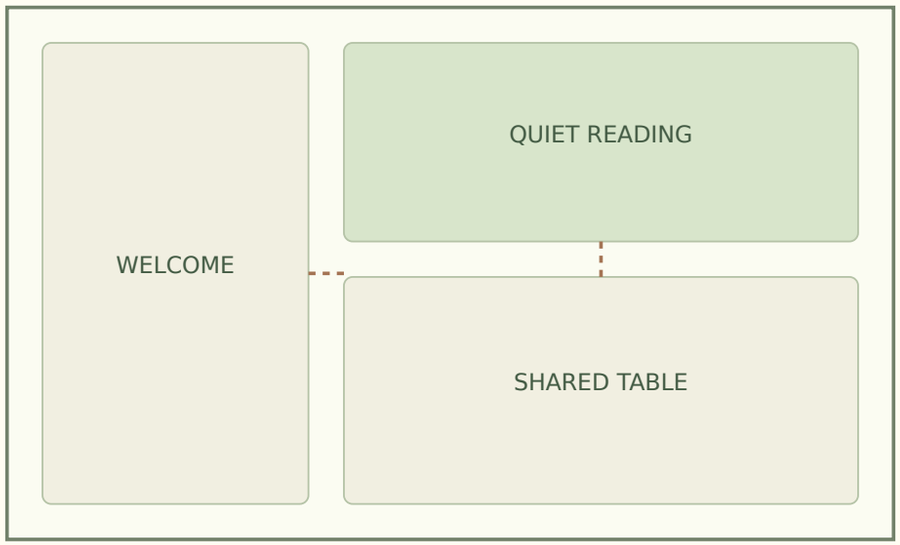

PROPOSED REVIEW ROLE

Project convenor

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 1 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

The concept offers a place for adult reading and modest conversation. It does not promise staffing, borrowing services, accessible provision, equipment or opening hours that a real operator has not reviewed and agreed.

Proposed purpose ≠ committed service.

NEXT ACTION / REVIEW QUESTION

List what is and is not proposed.

Which expectation would need a separate operational decision?

Invite voices without inventing demand.

CHAPTER

01 / Establish the purpose

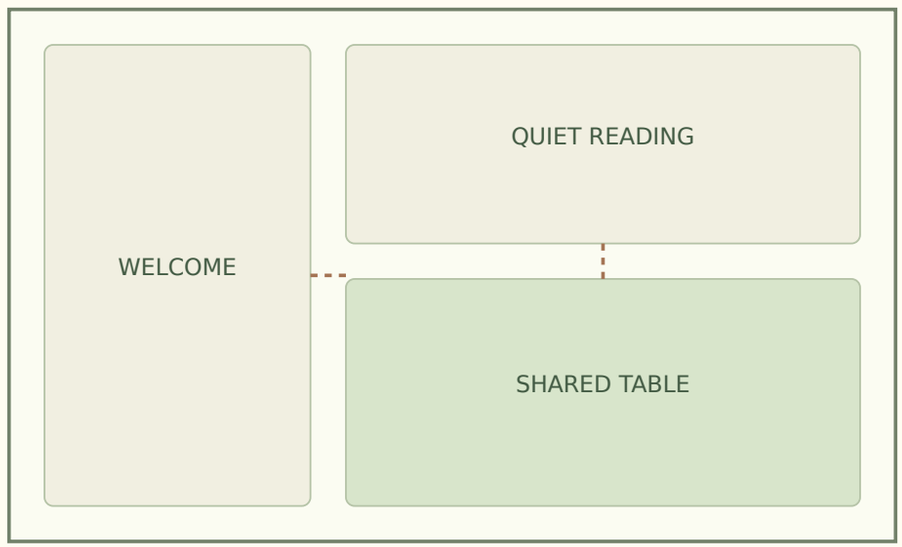

PROPOSED REVIEW ROLE

Engagement lead

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 2 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

The pictured neighbors are illustrative. No consultation has actually been conducted. A real project would need an appropriate process for asking questions, hearing disagreement and deciding what information may be recorded.

No attendance, demand or consent evidence is supplied.

NEXT ACTION / REVIEW QUESTION

Draft a bounded consultation question.

Whose perspective is missing from the concept discussion?

Keep a decision separate from a discussion.

CHAPTER

01 / Establish the purpose

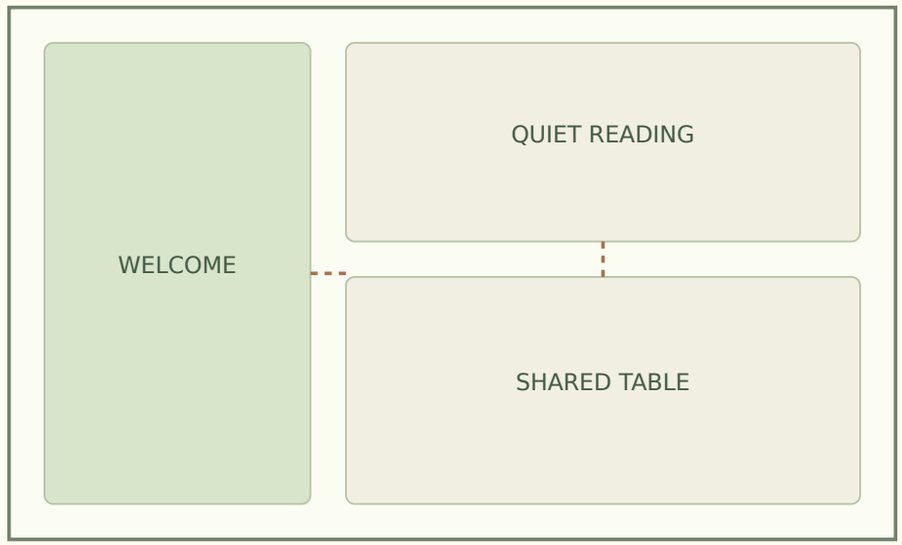

PROPOSED REVIEW ROLE

Project convenor

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 2 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

An idea raised around a table is not an agreement to fund, build or operate it. Record the topic, responsible reviewer and next step without treating informal enthusiasm as authorisation.

Discussion → review question → responsible reviewer.

NEXT ACTION / REVIEW QUESTION

Keep a list of unresolved decisions.

What would be needed before calling an idea an agreed commitment?

A threshold is an information moment.

CHAPTER

02 / Explore the space

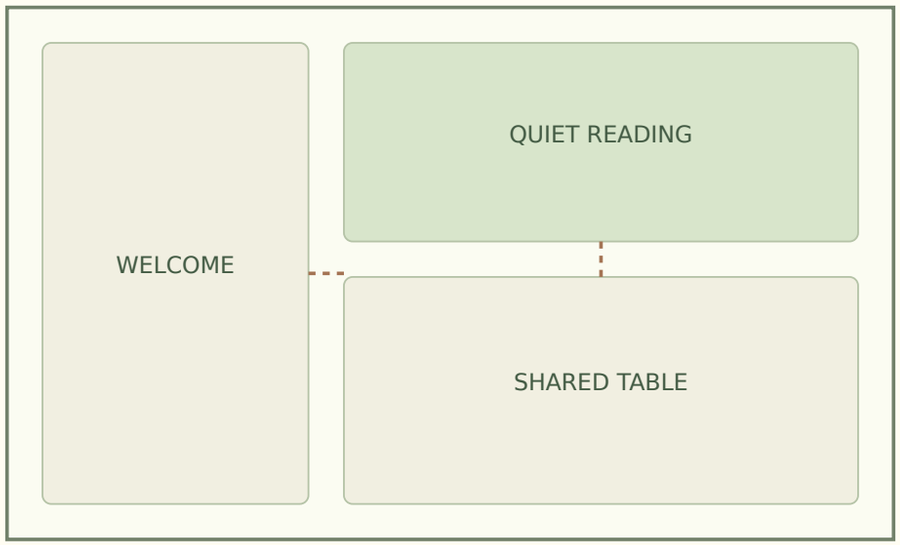

PROPOSED REVIEW ROLE

Venue liaison

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 3 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

The welcome zone is an abstract location for programme information. The sketch has no dimensions, capacity, real entrance geometry or approved circulation route. It cannot establish that a real site is suitable.

Concept diagram / not to scale / no real address.

NEXT ACTION / REVIEW QUESTION

Request the appropriate site information.

What must a venue reviewer know before considering this idea?

Three zones, not a technical drawing.

CHAPTER

02 / Explore the space

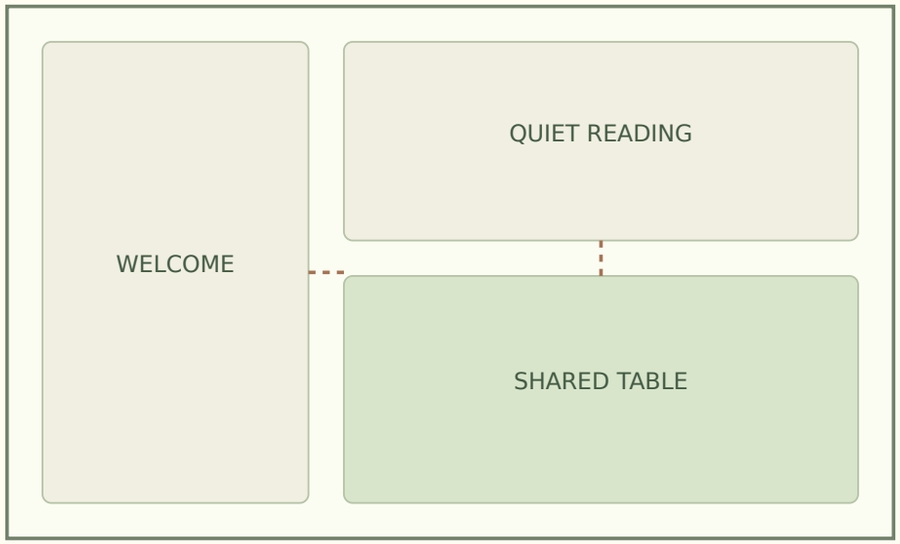

PROPOSED REVIEW ROLE

Space reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 3 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

Welcome, quiet reading and shared conversation are labels for discussion. They are not partitions, measured areas or a claim that these activities can coexist in any room. Actual space constraints remain unknown.

Three conceptual uses; no verified floor area.

NEXT ACTION / REVIEW QUESTION

Discuss relationships between proposed uses.

Which pair of uses could conflict in a real room?

Review the arrangement with the right people.

CHAPTER

02 / Explore the space

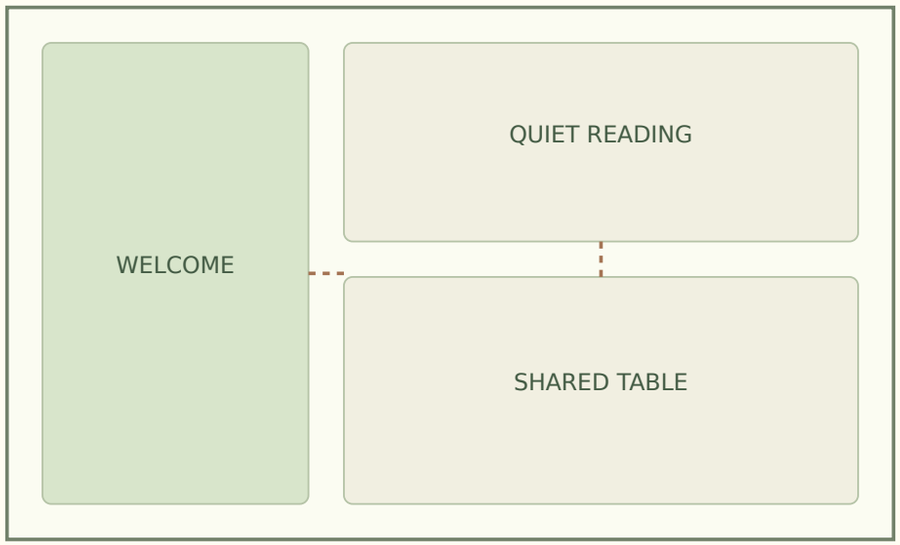

PROPOSED REVIEW ROLE

Venue liaison

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 4 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

An illustrated arrangement does not authorise moving furniture or changing routes. Local venue professionals and relevant reviewers must evaluate any real proposal through their own approved processes.

No construction, egress or access sign-off.

NEXT ACTION / REVIEW QUESTION

Refer arrangement questions to venue reviewers.

Which question should not be answered by a decorative sketch?

Keep options reversible on paper.

CHAPTER

02 / Explore the space

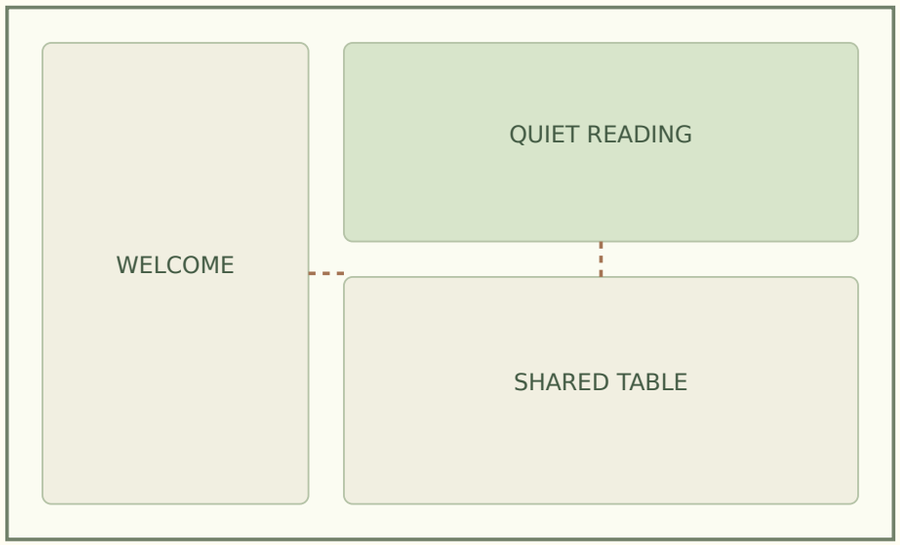

PROPOSED REVIEW ROLE

Space reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 4 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

Compare ideas as concepts before making a real commitment. A drawn alternative can help discuss trade-offs, but it does not prove that furniture can be moved, that an area is available or that changes are permitted.

Paper alternatives are not physical permissions.

NEXT ACTION / REVIEW QUESTION

Record the reason for preferring an option.

What information could change the preferred arrangement?

Quiet reading is a proposed experience.

CHAPTER

03 / Consider shared use

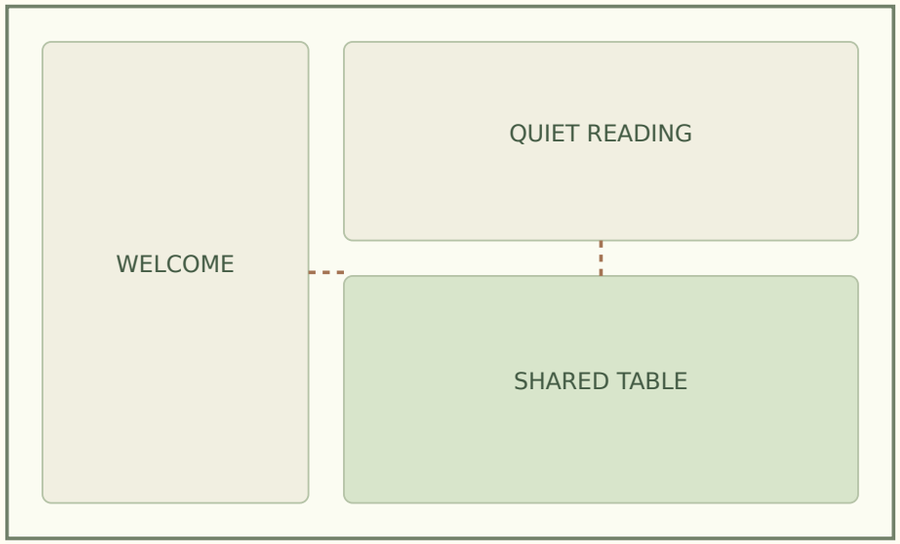

PROPOSED REVIEW ROLE

Use reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 5 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

A reading alcove suggests concentration, but a picture cannot establish acoustic performance, comfort or suitability for every person. Treat those qualities as questions requiring appropriate review, not demonstrated outcomes.

Illustration ≠ acoustic or comfort evidence.

NEXT ACTION / REVIEW QUESTION

Ask which environmental questions need review.

What would you need to understand about a real quiet-reading setting?

Conversation needs a bounded purpose.

CHAPTER

03 / Consider shared use

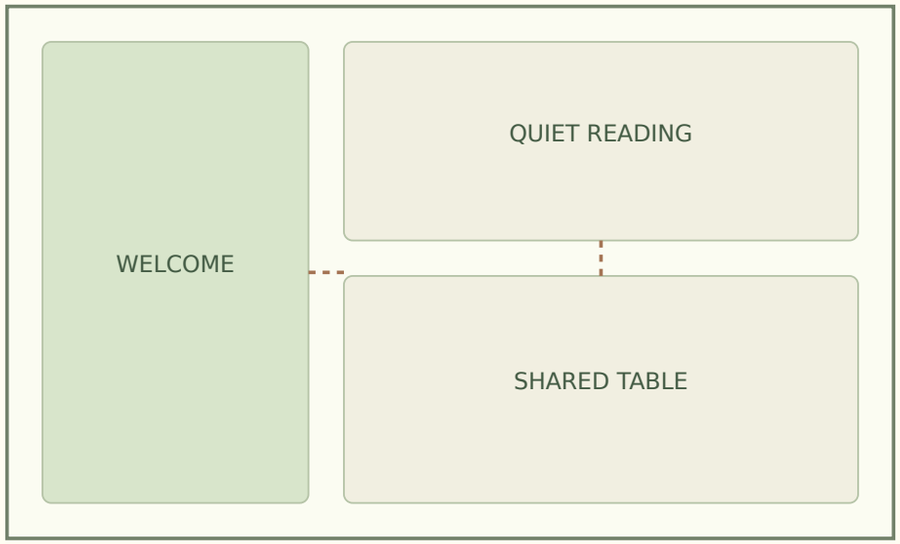

PROPOSED REVIEW ROLE

Programme reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 5 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

A shared table could support adult discussion if the responsible operator agrees. The concept does not define session capacity, supervision, booking, conduct rules or a service schedule. These remain separate operational matters.

A table is not an operating model.

NEXT ACTION / REVIEW QUESTION

Name one proposed discussion use.

Which responsibilities would that use introduce?

Do not infer inclusion from an image.

CHAPTER

03 / Consider shared use

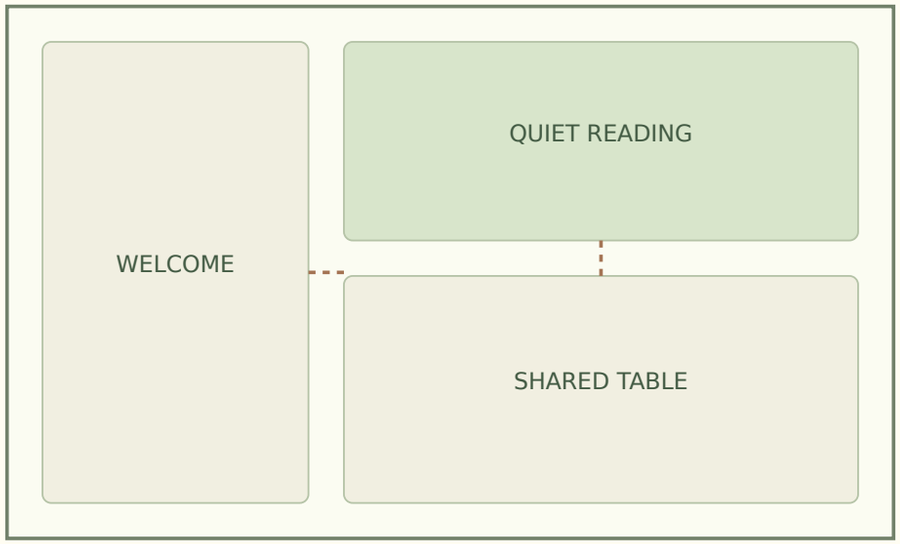

PROPOSED REVIEW ROLE

Engagement lead

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 6 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

The scene illustrates adults participating together. It does not verify access, equality of experience or compliance at an actual venue. Relevant people should be involved in reviewing real needs through appropriate local processes.

Illustrative participation; no access certification.

NEXT ACTION / REVIEW QUESTION

List inclusion questions without collecting sensitive details.

What would be inappropriate to claim from this illustration alone?

Make room for different preferences.

CHAPTER

03 / Consider shared use

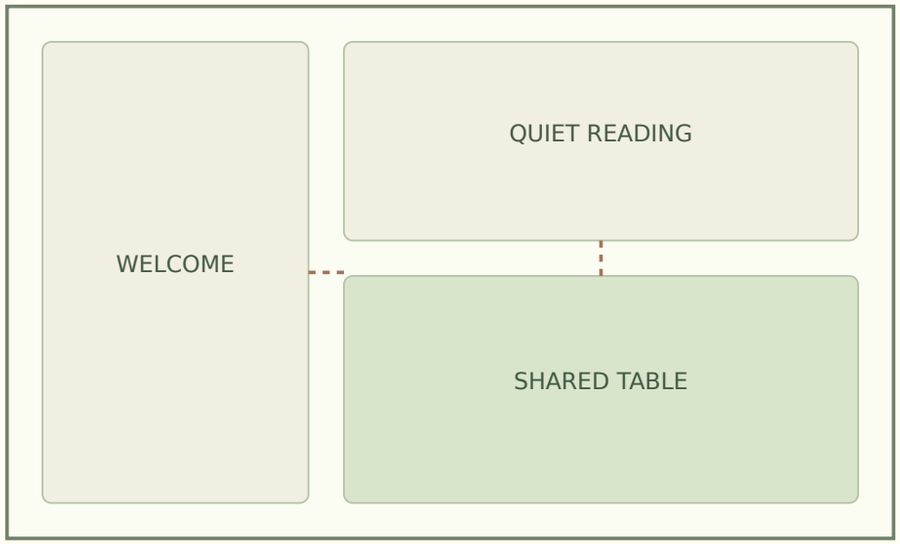

PROPOSED REVIEW ROLE

Programme reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 6 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

Some adults may prefer quiet reading, others conversation, and others may not wish to participate. Avoid describing one preferred activity as a universal community need without an actual evidence base.

Preferences are not yet studied.

NEXT ACTION / REVIEW QUESTION

Keep alternative preferences visible.

Which assumption about participation should remain open?

Books imply a stewardship question.

CHAPTER

04 / Name stewardship

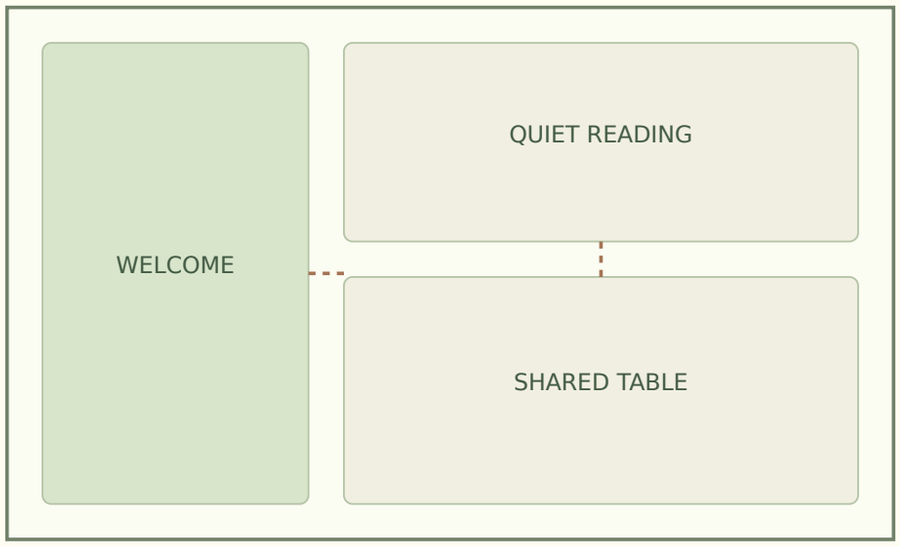

PROPOSED REVIEW ROLE

Collection reviewer

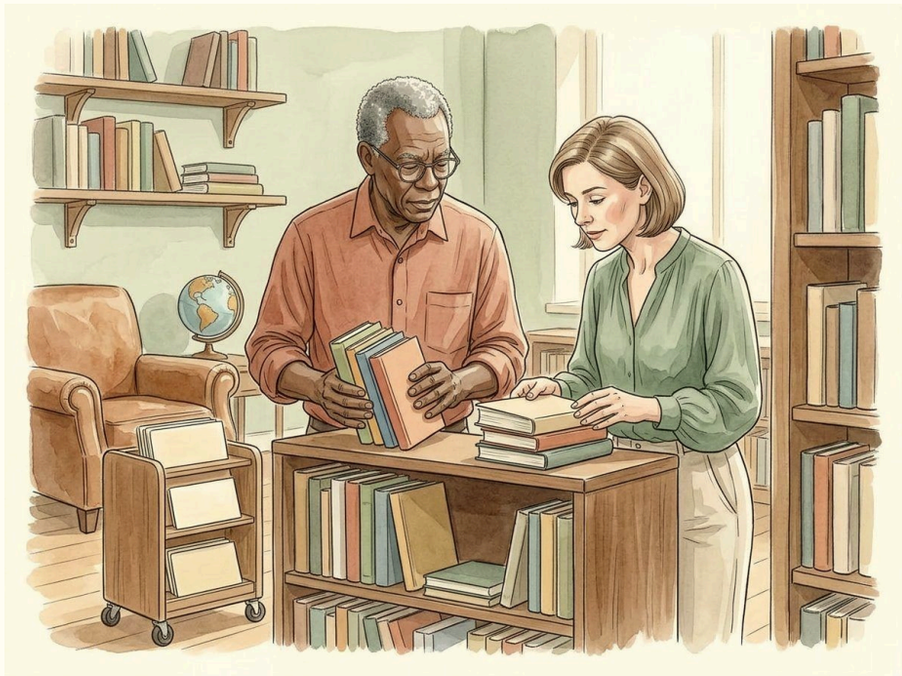

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 7 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

Placing books on a shelf raises questions about ownership, selection, condition and responsibility. This concept does not supply a lending policy, catalog, real inventory or permission to use anyone’s materials.

No real collection or lending service is provided.

NEXT ACTION / REVIEW QUESTION

Identify who would review stewardship.

Who would need to agree before materials were offered?

Separate a role from a named commitment.

CHAPTER

04 / Name stewardship

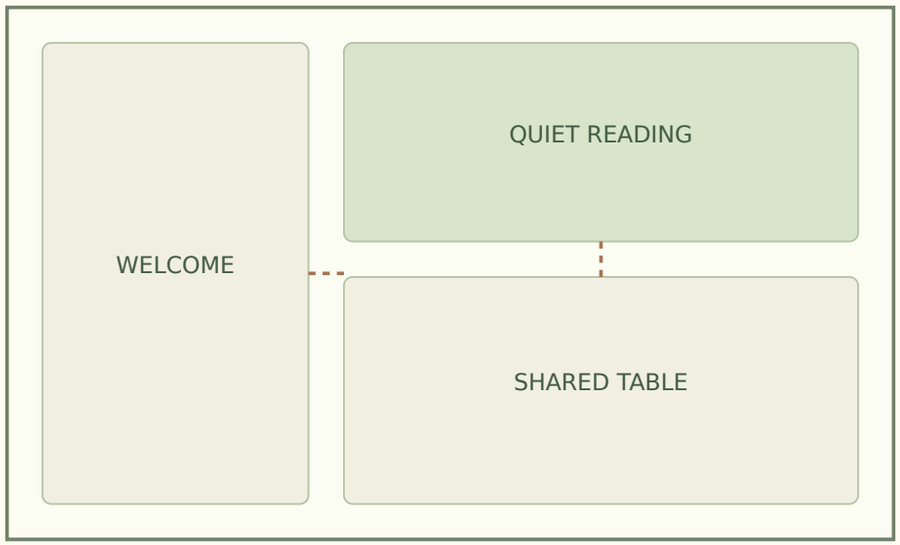

PROPOSED REVIEW ROLE

Project convenor

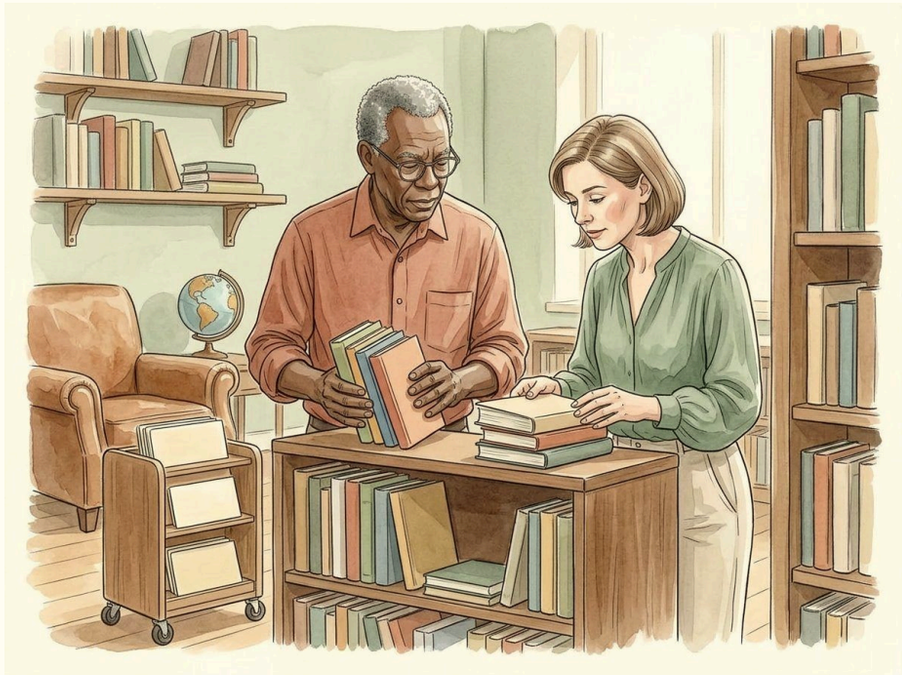

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 7 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

A role label helps organise a proposal but does not mean a person has accepted it. Keep proposed responsibilities distinct from actual assignments and let real participants review the scope before agreeing.

Proposed role ≠ accepted appointment.

NEXT ACTION / REVIEW QUESTION

Mark each responsibility as proposed.

How would you record an unaccepted responsibility honestly?

Care belongs in the operational discussion.

CHAPTER

04 / Name stewardship

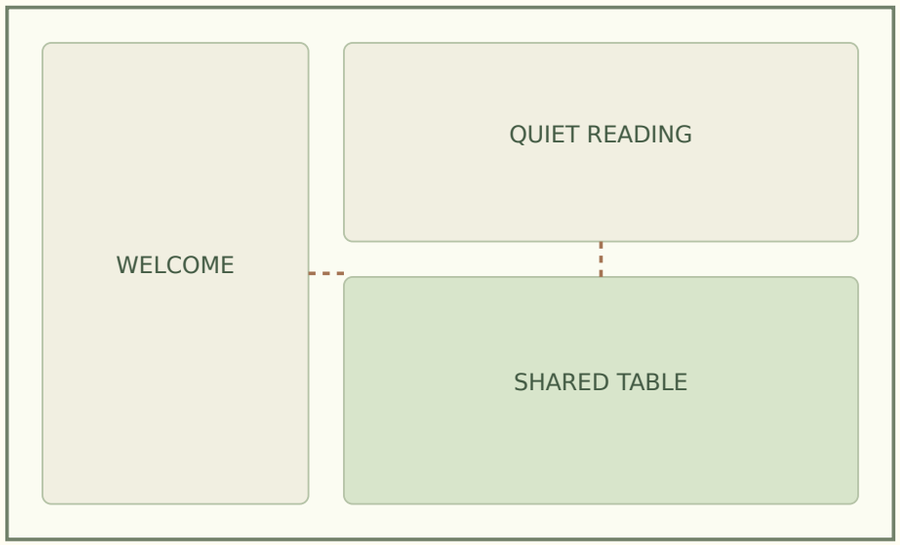

PROPOSED REVIEW ROLE

Operations reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 8 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

A tidy still life is not evidence that a room can be maintained at no cost. Actual upkeep, staffing and equipment arrangements need an operator and local review; this proposal gives no cleaning or maintenance instructions.

Ongoing care is not costed or approved.

NEXT ACTION / REVIEW QUESTION

Ask who would review ongoing resource needs.

Which ongoing question is easily hidden by an attractive room image?

16

Define the handoff before claiming readiness.

CHAPTER

04 / Name stewardship

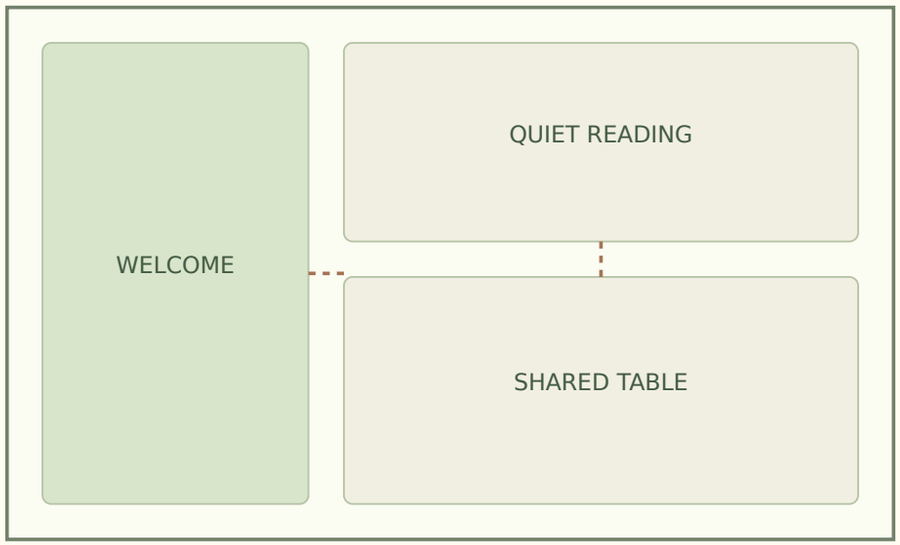

PROPOSED REVIEW ROLE

Project convenor

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 8 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

A handoff needs an issue, current status and responsible next reviewer. Do not mark a dependency resolved merely because a concept board has been completed or a local review menu has been changed.

Local review marks are private drafting notes.

NEXT ACTION / REVIEW QUESTION

Write one explicit handoff dependency.

What acknowledgement would the next reviewer need to provide?

A resource model is not a quote.

CHAPTER

05 / Bound the resources

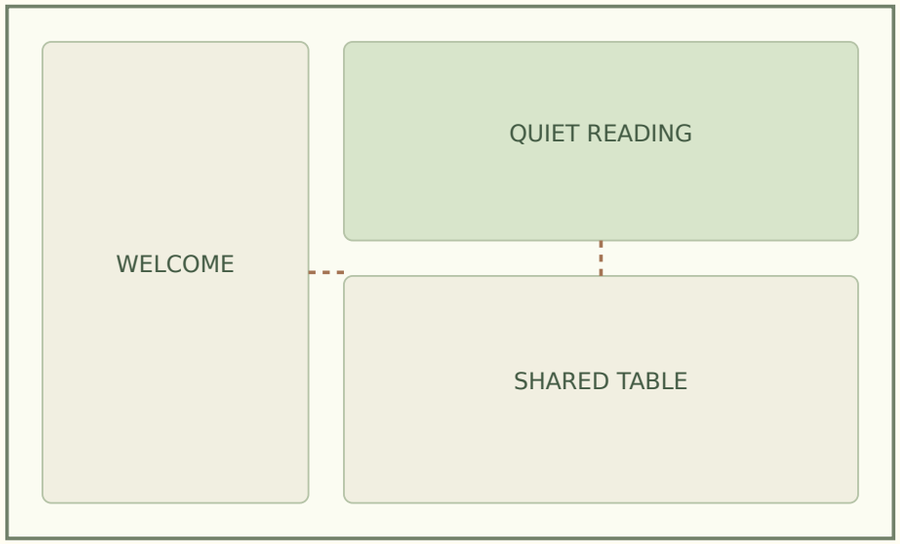

PROPOSED REVIEW ROLE

Resource reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 9 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

The fictional planning allowances are shelving 1,800 units, seating 1,400, paper materials 600 and a provisional reserve 400. These invented values support arithmetic discussion, not procurement or a funded budget.

1,800 + 1,400 + 600 + 400 = 4,200 model units.

NEXT ACTION / REVIEW QUESTION

Label every number as a planning assumption.

Which description would falsely turn this model into a real quotation?

A subtotal can omit major costs.

CHAPTER

05 / Bound the resources

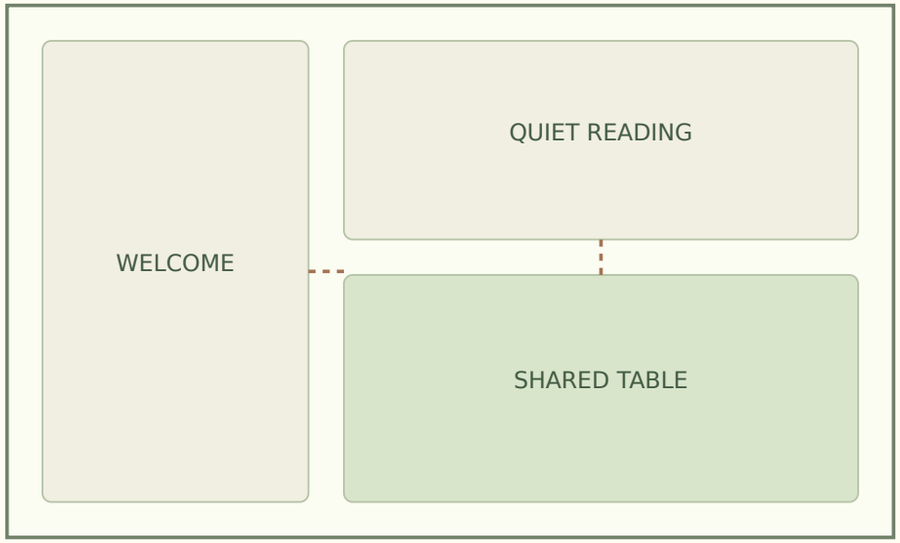

PROPOSED REVIEW ROLE

Resource reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 9 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

The model excludes staffing, insurance, venue use, specialist review and other unknown costs. A tidy subtotal does not make a complete cost plan. Keep omissions visible beside the arithmetic.

4,200 units is an illustrative subtotal only.

NEXT ACTION / REVIEW QUESTION

Record major unpriced categories.

Why should an omitted cost not automatically become zero?

A change has an explicit effect.

CHAPTER

05 / Bound the resources

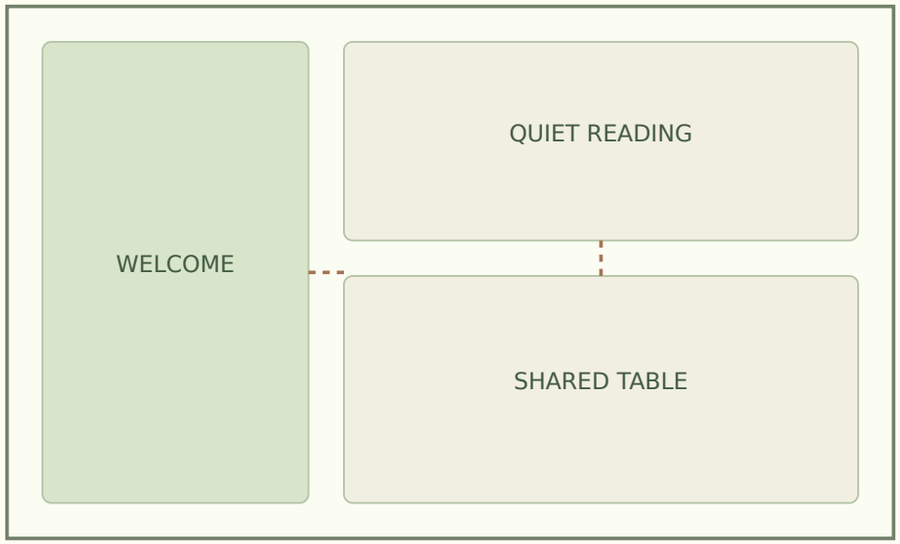

PROPOSED REVIEW ROLE

Resource reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 10 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

If an illustrative additional allowance is 800 units, the model subtotal becomes 5,000. This arithmetic does not authorise a purchase, establish affordability or indicate that money is available.

4,200 + 800 = 5,000 fictional units.

NEXT ACTION / REVIEW QUESTION

Record the assumption behind an addition.

What real decision is not answered by the new subtotal?

Keep procurement outside the illustration.

CHAPTER

05 / Bound the resources

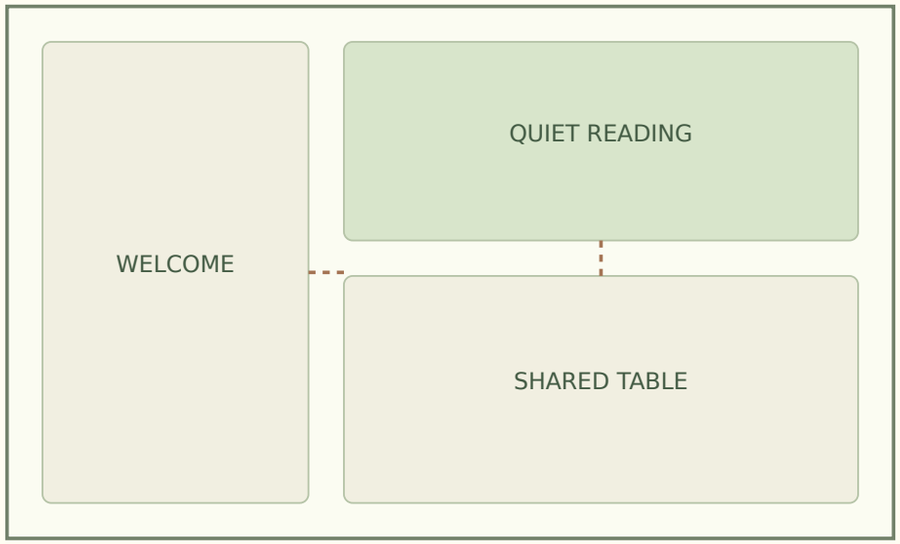

PROPOSED REVIEW ROLE

Procurement reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 10 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

The furniture images are generic concepts, not product specifications or supplier endorsements. A real purchase would require its own appropriate review, authority and process. No transaction occurs in this template.

No supplier, order, funding or contract is provided.

NEXT ACTION / REVIEW QUESTION

Identify the responsible procurement process.

Which promise would exceed this concept’s scope?

A risk question is not a safety instruction.

CHAPTER

06 / Surface the boundaries

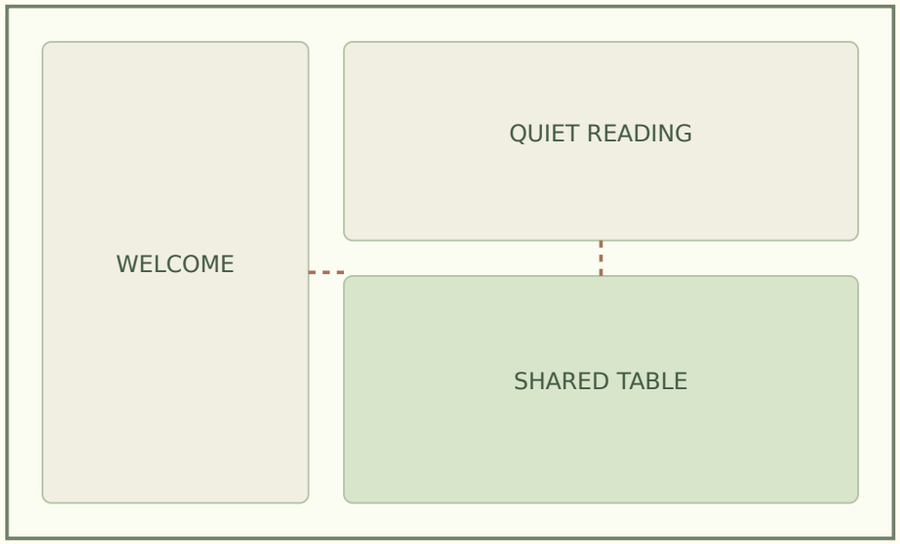

PROPOSED REVIEW ROLE

Venue liaison

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 11 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

This proposal can name uncertainties and the relevant reviewer. It cannot diagnose a venue, provide an emergency plan or certify a safe arrangement. Real safety questions belong to the responsible qualified people and local procedures.

No safety or technical assessment is supplied.

NEXT ACTION / REVIEW QUESTION

Route specialist questions to the appropriate reviewer.

Which question needs expertise outside this proposal?

Keep an unresolved dependency unresolved.

CHAPTER

06 / Surface the boundaries

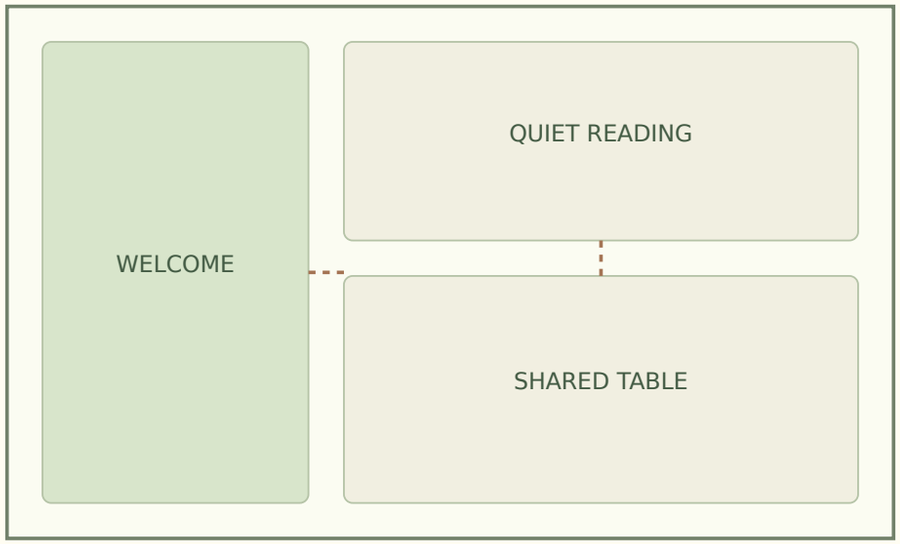

PROPOSED REVIEW ROLE

Project convenor

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 11 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

Missing information is not approval and a blank field is not evidence that there is no issue. State what is unknown, who should review it and what kind of response would allow the next discussion.

Unknown ≠ approved ≠ not applicable.

NEXT ACTION / REVIEW QUESTION

Make one missing dependency explicit.

What would be lost by replacing unknown with ready?

Name the origin of each claim.

CHAPTER

06 / Surface the boundaries

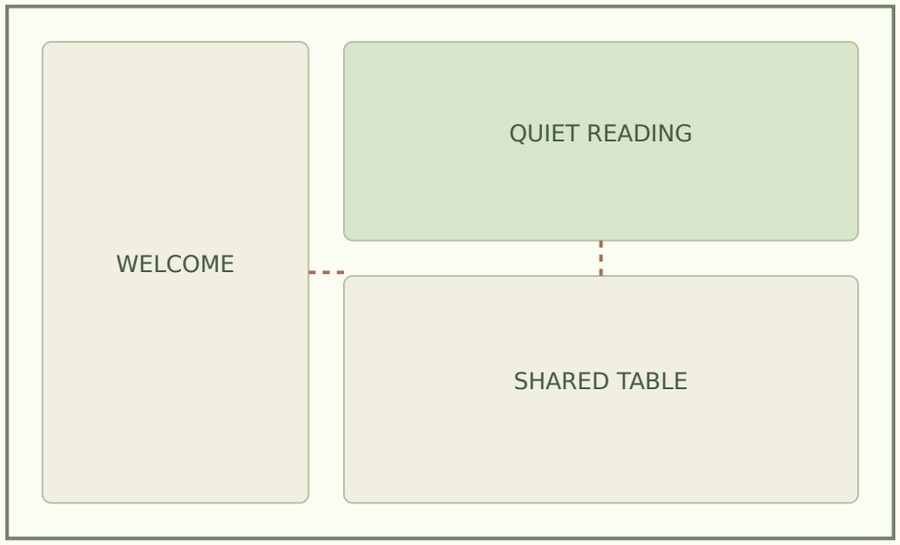

PROPOSED REVIEW ROLE

Evidence reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 12 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

All scenes and resource figures here are fictional. A future real proposal should distinguish observed facts, attributed sources, assumptions and open questions rather than combining them into a single confident narrative.

Sources: concept art and invented teaching numbers.

NEXT ACTION / REVIEW QUESTION

Label evidence and assumptions separately.

Which sentence would need an actual source before real-world use?

Avoid unnecessary personal records.

CHAPTER

06 / Surface the boundaries

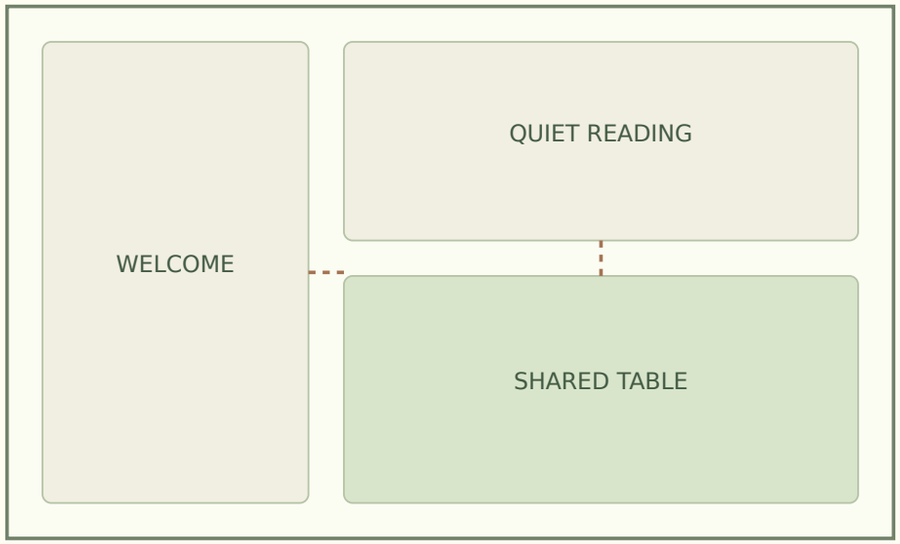

PROPOSED REVIEW ROLE

Record reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 12 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

These boards need no participant names, contact details or sensitive stories to illustrate a concept. The private browser note is not a secure data store or a shared case-management record. Use appropriate real processes for any personal information.

No personal-data collection is required here.

NEXT ACTION / REVIEW QUESTION

Keep the draft note non-sensitive.

How could you describe an issue without recording a personal story?

Open means a question remains.

CHAPTER

07 / Review the proposal

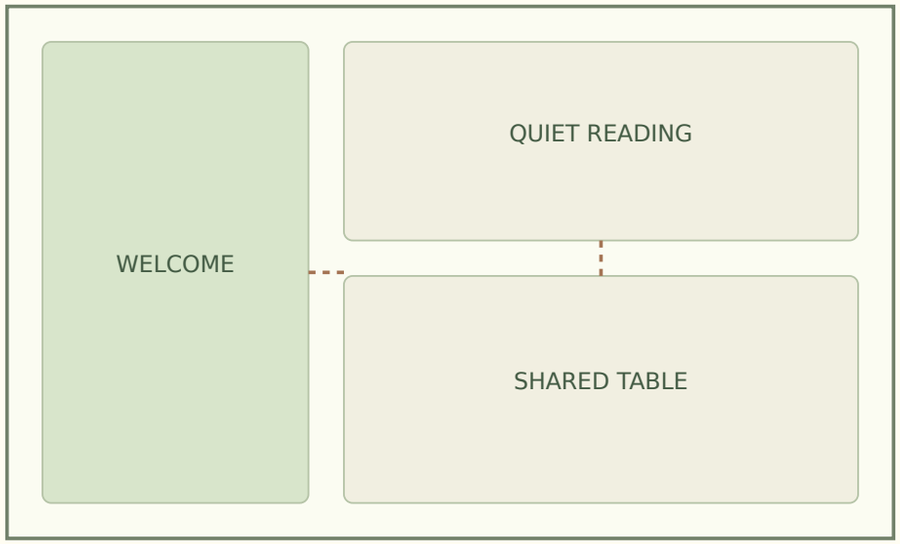

PROPOSED REVIEW ROLE

Draft reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 13 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

The local menu offers open, revise, discuss and defer. Those values help you annotate a draft in your browser. They do not send anything to a team, record official approval or change real venue permissions.

Browser-local drafting status only.

NEXT ACTION / REVIEW QUESTION

Choose a local review mark for this board.

What must remain clear when a locally marked board is exported?

Revise the assumption, not the history.

CHAPTER

07 / Review the proposal

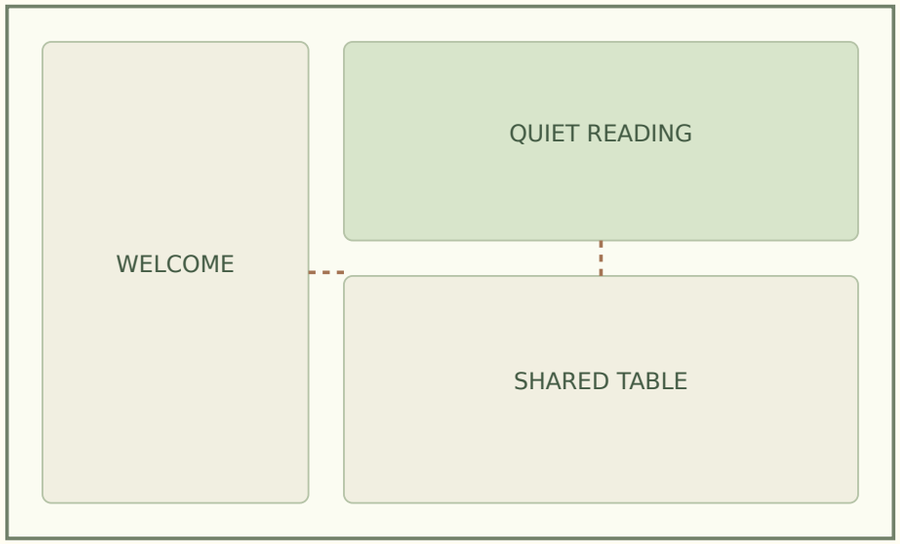

PROPOSED REVIEW ROLE

Draft reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 13 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

If an assumption changes, state what was changed and why. Do not rewrite a fictional consultation as if it had actually happened or present a proposed resource as already committed.

Revision is not retrospective evidence.

NEXT ACTION / REVIEW QUESTION

Write a bounded reason for revision.

Which earlier distinction should survive a revised proposal?

Discuss a specific question.

CHAPTER

07 / Review the proposal

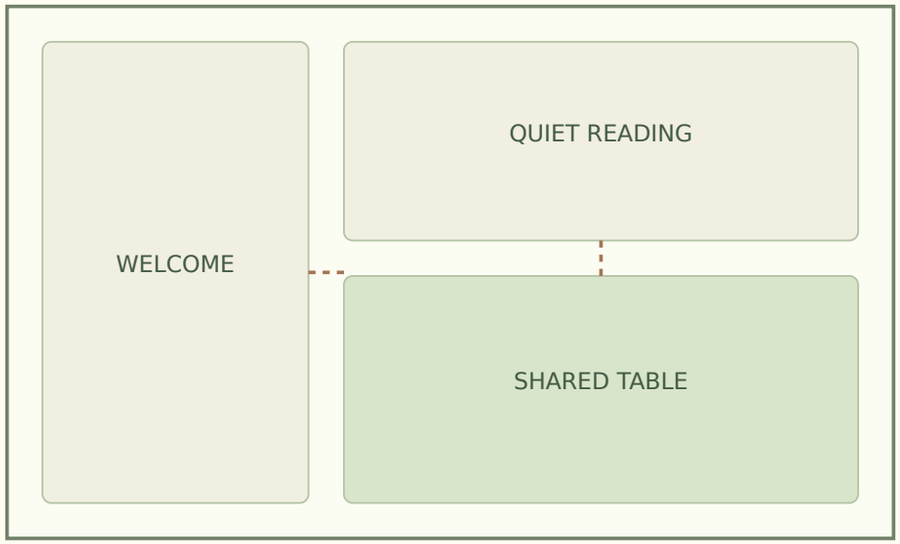

PROPOSED REVIEW ROLE

Project convenor

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 14 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

A useful review request names one issue, the information needed and the relevant role. “Please approve everything” hides dependencies and can imply authority that this template does not provide.

Issue → needed information → reviewer → next discussion.

NEXT ACTION / REVIEW QUESTION

Frame one concrete review request.

What information would make the next conversation more useful?

Deferral can be an honest outcome.

CHAPTER

07 / Review the proposal

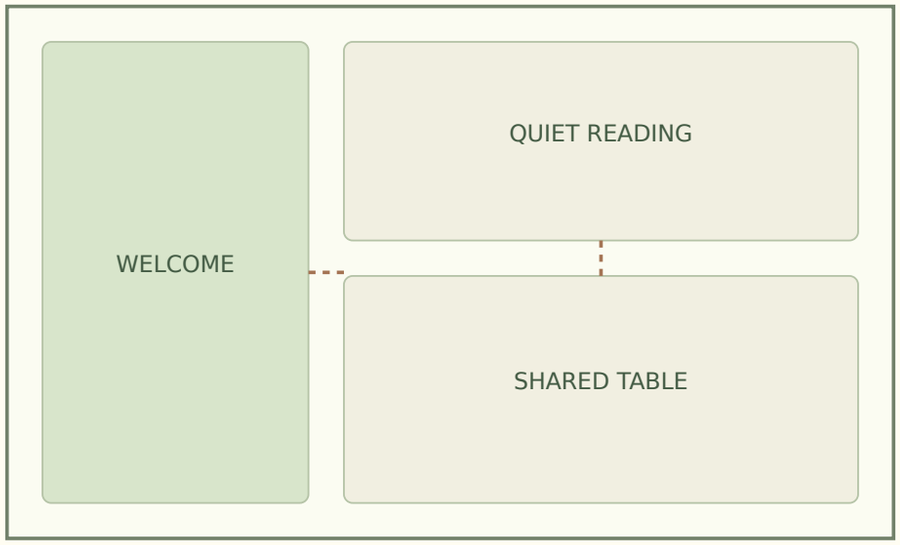

PROPOSED REVIEW ROLE

Project convenor

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 14 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

A concept can remain on hold when information, responsibility or permission is missing. Deferral is not a failure to produce a pretty board; it preserves the boundary between a design idea and a real-world commitment.

A complete concept may still be unsuitable for implementation.

NEXT ACTION / REVIEW QUESTION

Name the reason for a proposed deferral.

Which unanswered question would justify waiting?

Make a bounded next step.

CHAPTER

08 / Hand over clearly

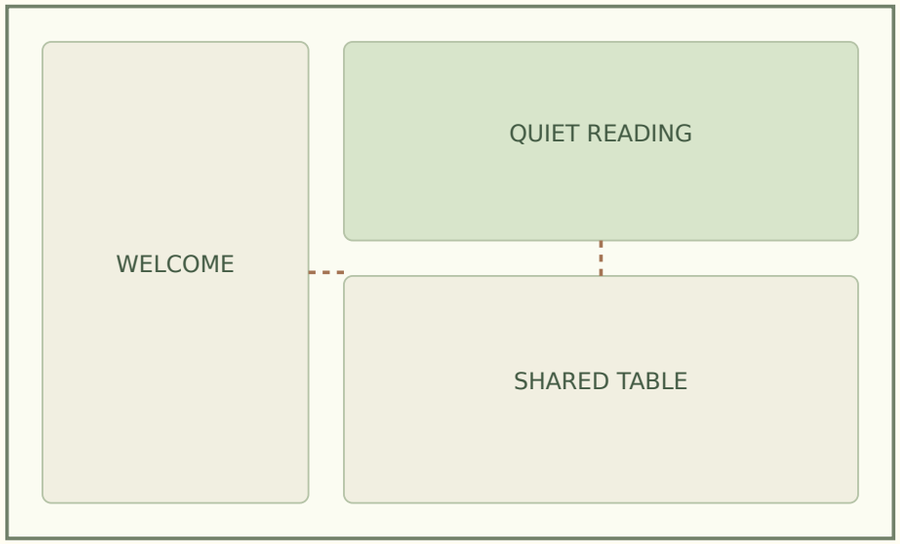

PROPOSED REVIEW ROLE

Project convenor

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 15 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

A next step might be to draft a question for a venue reviewer. It should name a proposed owner and review point without implying that the person has accepted the task or that the project is funded.

Proposed next step, subject to acceptance.

NEXT ACTION / REVIEW QUESTION

Write one limited proposed action.

How would you distinguish a suggestion from an assigned task?

Explain the version being shared.

CHAPTER

08 / Hand over clearly

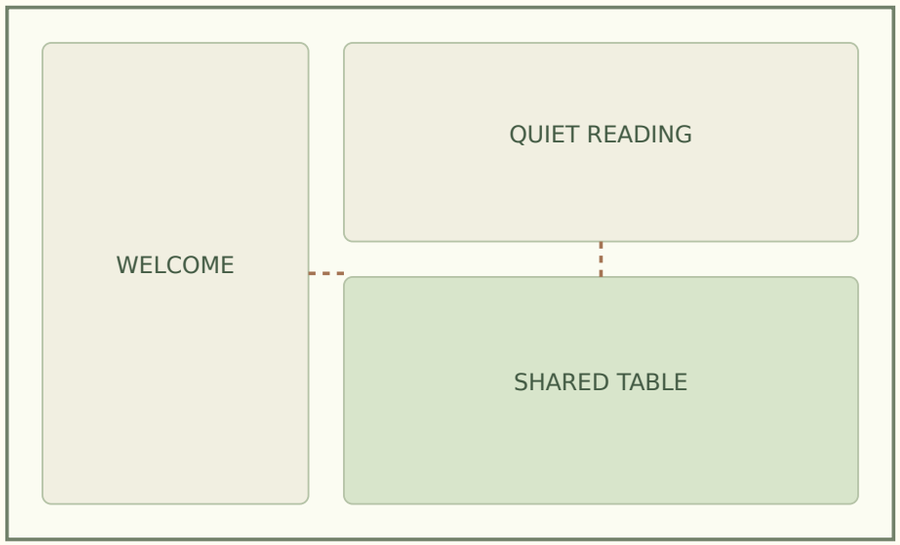

PROPOSED REVIEW ROLE

Record reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 15 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

When sharing a draft, identify which local text and review marks it contains. Current HTML and JSON exports preserve browser edits; the original PDF/PPTX remain unchanged source exports.

Editable draft exports are separate from original downloads.

NEXT ACTION / REVIEW QUESTION

Choose the intended export and state its scope.

What could confuse a reviewer receiving two different versions?

Check the claim, not just the appearance.

CHAPTER

08 / Hand over clearly

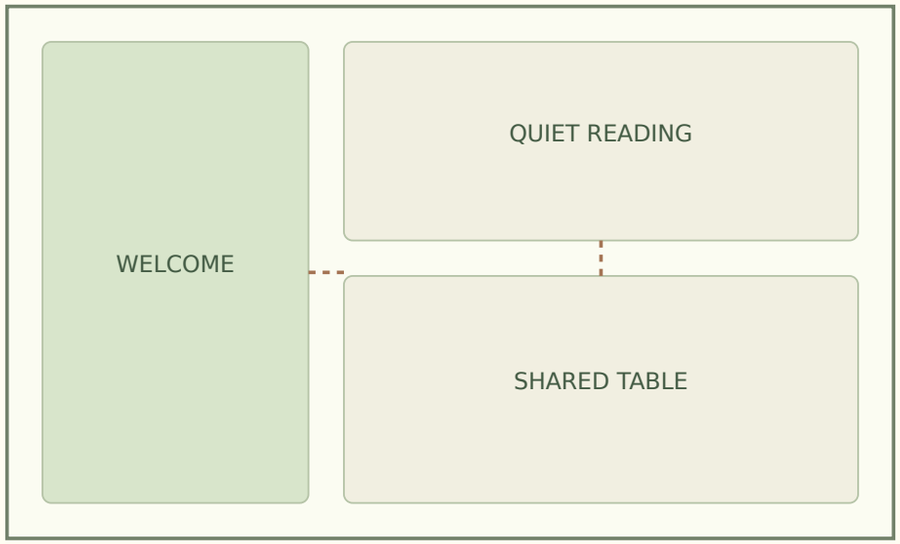

PROPOSED REVIEW ROLE

Draft reviewer

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 16 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

Before sharing, verify that the proposal still distinguishes concept from permission, model from quote and local note from approval. An illustration does not close a missing evidence or responsibility gap.

Review: purpose / source / owner / limit / next question.

NEXT ACTION / REVIEW QUESTION

Inspect one unsupported-sounding sentence.

Which limitation must stay visible outside this browser?

Leave a clear question on the table.

CHAPTER

08 / Hand over clearly

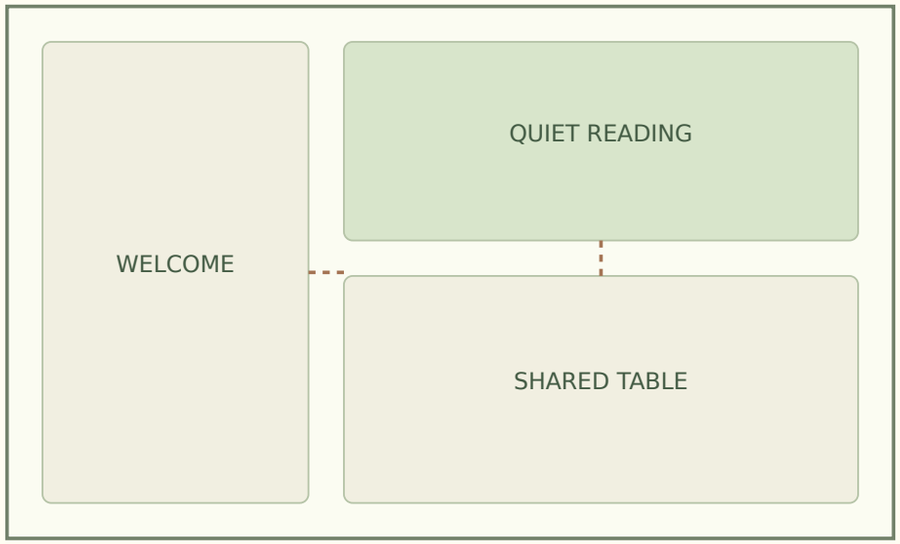

PROPOSED REVIEW ROLE

Project convenor

PRIVATE DRAFT MARK

LOCAL REVIEW / OPEN

ZONING STUDY / DISCUSSION ONLY

Not to scale. No real address, dimensions, capacity or approved route.

Watercolour 16 / fictional scene, not site evidence

PROPOSAL / BOUNDARY

A useful spatial concept ends with a transparent next discussion, not a claim that the room is ready to operate. Keep its sources, assumptions, responsibilities and unresolved questions visible to the next reader.

A concept is a starting point, not implementation authority.

NEXT ACTION / REVIEW QUESTION

Hand over the current question and its boundaries.

What should the next reader understand before proposing a real decision?
