SWATCH

VISUAL MATERIAL QUESTION INDEX

SW-001 / NOTICE / UNTESTED INSPIRATION

Start with a visual question.

Fictional watercolour / not a tested specimen or supplier record / artwork 1

READ THE BOUNDARY

This index organises imagined material conversations. The illustrated workshop is a setting, not a laboratory. Begin with something the picture invites you to notice, without turning it into a measured material property.

01 / LOOK

Describe one visible colour or arrangement.

02 / DO NOT ASSUME

A convincing illustration is not a tested sample.

03 / ASK NEXT

What would you want to inspect in a real specimen?

04 / KEEP ATTACHED

Retain the distinction between inspiration and evidence.

SWATCH

VISUAL MATERIAL QUESTION INDEX

Name the source before the sample.

Fictional watercolour / not a tested specimen or supplier record / artwork 1

READ THE BOUNDARY

Every scene is a fictional watercolour. Its paper, cloth and coloured sheets have no verified composition, dimensions or supplier. A source note travels with every useful creative question.

01 / LOOK

Notice which objects appear together.

02 / DO NOT ASSUME

An illustrated texture does not identify composition.

03 / ASK NEXT

Which source would a real material claim require?

04 / KEEP ATTACHED

Label this page as visual inspiration.

SWATCH

VISUAL MATERIAL QUESTION INDEX

SW-003 / NOTICE / UNTESTED INSPIRATION

Look without naming performance.

Fictional watercolour / not a tested specimen or supplier record / artwork 2

READ THE BOUNDARY

A surface can look rough, smooth, soft or glossy in a picture. Those visual impressions do not measure friction, flexibility, durability or any other physical property.

01 / LOOK

Use appears rather than is when describing a texture.

02 / DO NOT ASSUME

Visual appearance cannot establish tactile behaviour.

03 / ASK NEXT

What is visible, and what would require separate evidence?

04 / KEEP ATTACHED

Keep the original observation separate from interpretation.

SW-004 / NOTICE / UNTESTED INSPIRATION

Give colour its context.

Fictional watercolour / not a tested specimen or supplier record / artwork 2

READ THE BOUNDARY

A coloured card changes its apparent relationship to neighbouring colours and imagined light. The picture supplies no calibrated colour measurement or production colour standard.

01 / LOOK

Compare a card with its illustrated surroundings.

02 / DO NOT ASSUME

The display and illustration are not calibrated references.

03 / ASK NEXT

What context is missing from a precise colour claim?

04 / KEEP ATTACHED

Avoid assigning a production colour code.

SW-005 / NOTICE / UNTESTED INSPIRATION

Let a tray organise attention.

Fictional watercolour / not a tested specimen or supplier record / artwork 3

READ THE BOUNDARY

The specimen tray is an imagined arrangement of objects, not an inventory of real stock. Use grouping to generate questions rather than infer availability, price or suitability.

01 / LOOK

Notice a grouping that makes comparison easier.

02 / DO NOT ASSUME

An object in a picture is not an available product.

03 / ASK NEXT

Which grouping would clarify your next creative question?

04 / KEEP ATTACHED

Do not invent a supplier or stock count.

SW-006 / NOTICE / UNTESTED INSPIRATION

Write a bounded observation.

Fictional watercolour / not a tested specimen or supplier record / artwork 3

READ THE BOUNDARY

Choose one detail and write a short sentence about what the image shows. Follow it with something the image cannot tell you. The two sentences should do different jobs.

01 / LOOK

Record one visual detail.

02 / DO NOT ASSUME

The missing information is not automatically negative.

03 / ASK NEXT

What limitation belongs next to this observation?

04 / KEEP ATTACHED

Keep both observation and limitation visible.

SW-007 / SEPARATE / UNTESTED INSPIRATION

Separate appearance from identity.

Fictional watercolour / not a tested specimen or supplier record / artwork 4

READ THE BOUNDARY

A cork-coloured block may suggest a material family, but the illustration cannot identify it. Use the resemblance as a prompt, not as a composition statement.

01 / LOOK

Describe the colour and shape without naming a material.

02 / DO NOT ASSUME

Resemblance does not establish identity.

03 / ASK NEXT

Which document could establish an actual specimen’s identity?

04 / KEEP ATTACHED

Use fictional visual sample in a shared note.

SW-008 / SEPARATE / UNTESTED INSPIRATION

Separate preference from suitability.

Fictional watercolour / not a tested specimen or supplier record / artwork 4

READ THE BOUNDARY

A designer may enjoy a colour combination without knowing whether a material suits an application. This exercise supplies no product requirements, test method or use conditions.

01 / LOOK

Name a personal visual preference.

02 / DO NOT ASSUME

Preference is not evidence of fitness for use.

03 / ASK NEXT

What requirements would a real selection need?

04 / KEEP ATTACHED

Keep the application question open.

SW-009 / SEPARATE / UNTESTED INSPIRATION

Separate a label from a fact.

Fictional watercolour / not a tested specimen or supplier record / artwork 5

READ THE BOUNDARY

A short catalogue label can make a page easy to find, but it does not prove a physical characteristic. Our SW identifiers label pages, not real specimens or batches.

01 / LOOK

Read the page ID as a filing aid.

02 / DO NOT ASSUME

A page identifier is not traceability evidence.

03 / ASK NEXT

What would real traceability need beyond a label?

04 / KEEP ATTACHED

Do not present SW IDs as supplier lot numbers.

SW-010 / SEPARATE / UNTESTED INSPIRATION

Separate missing from measured.

Fictional watercolour / not a tested specimen or supplier record / artwork 5

READ THE BOUNDARY

No thickness, mass, strength, cost or environmental result is supplied. Missing values are not zero values. Do not fill an attractive comparison table with invented measurements.

01 / LOOK

Name a variable that is not supplied.

02 / DO NOT ASSUME

Not measured is different from measured zero.

03 / ASK NEXT

How can a question stay useful without a made-up number?

04 / KEEP ATTACHED

Leave the missing value explicitly unknown.

SW-011 / SEPARATE / UNTESTED INSPIRATION

Separate mood from outcome.

Fictional watercolour / not a tested specimen or supplier record / artwork 6

READ THE BOUNDARY

The sunny studio may make an arrangement feel optimistic. That mood does not establish that a real product is useful, accessible, sustainable or welcomed by its users.

01 / LOOK

Describe the mood as a visual reading.

02 / DO NOT ASSUME

Mood is not a user-study result.

03 / ASK NEXT

What separate evidence would an outcome claim require?

04 / KEEP ATTACHED

Do not invent participant feedback.

SW-012 / SEPARATE / UNTESTED INSPIRATION

Keep two kinds of note.

Fictional watercolour / not a tested specimen or supplier record / artwork 6

READ THE BOUNDARY

An observation describes the picture; an assumption proposes something beyond it. Write them in different slips so the next reader can see the boundary.

01 / LOOK

Keep the visual description specific.

02 / DO NOT ASSUME

A proposed explanation remains an assumption.

03 / ASK NEXT

Which part of your note reaches beyond the image?

04 / KEEP ATTACHED

Use the four slips to separate the jobs.

Compare questions, not properties.

Fictional watercolour / not a tested specimen or supplier record / artwork 7

READ THE BOUNDARY

Pin up to three pages to the comparison tray. It places their current questions and assumptions side by side. It does not rank physical materials or calculate a performance score.

01 / LOOK

Choose pages with useful contrasting questions.

02 / DO NOT ASSUME

Pinned cards are creative references, not benchmarks.

03 / ASK NEXT

What does this comparison help you ask?

04 / KEEP ATTACHED

No winner or material recommendation is implied.

SW-014 / COMPARE / UNTESTED INSPIRATION

Keep the comparison scope small.

Fictional watercolour / not a tested specimen or supplier record / artwork 7

READ THE BOUNDARY

A few carefully labelled references can be clearer than a wall of unrelated inspiration. The tray accepts at most three pages, making the chosen scope visible.

01 / LOOK

Notice why each card belongs in the set.

02 / DO NOT ASSUME

A small reference set is not a representative sample.

03 / ASK NEXT

Which page would you remove to clarify the question?

04 / KEEP ATTACHED

Unpin a card rather than silently expanding the scope.

SW-015 / COMPARE / UNTESTED INSPIRATION

Compare the words you used.

Fictional watercolour / not a tested specimen or supplier record / artwork 8

READ THE BOUNDARY

Read two observations for differences in wording. One may describe a visible arrangement while the other implies an untested property. Revise the wording rather than pretend the missing evidence exists.

01 / LOOK

Underline a word that implies physical performance.

02 / DO NOT ASSUME

A confident adjective can hide an unsupported claim.

03 / ASK NEXT

How could you make the sentence more precise?

04 / KEEP ATTACHED

Retain the earlier question if it remains useful.

Give alternatives equal room.

Fictional watercolour / not a tested specimen or supplier record / artwork 8

READ THE BOUNDARY

Two visual directions can remain plausible at once. The index does not require a final selection. Keep alternatives labelled without declaring an engineering or procurement decision.

01 / LOOK

Describe what interests you in each direction.

02 / DO NOT ASSUME

A creative shortlist is not an approved specification.

03 / ASK NEXT

What would need to happen before an actual selection?

04 / KEEP ATTACHED

Leave unresolved alternatives visible.

SW-017 / COMPARE / UNTESTED INSPIRATION

Notice what the image omits.

Fictional watercolour / not a tested specimen or supplier record / artwork 9

READ THE BOUNDARY

The illustrated drawers may be full of appealing samples, but no maintenance, sourcing, end-of-life or real user context is provided. Absence from the picture is not evidence that these questions are unimportant.

01 / LOOK

List one important topic outside the frame.

02 / DO NOT ASSUME

A scene cannot stand in for a product lifecycle study.

03 / ASK NEXT

Who would need to investigate the omitted topic?

04 / KEEP ATTACHED

Keep the boundary beside the visual reference.

Write the comparison question.

Fictional watercolour / not a tested specimen or supplier record / artwork 9

READ THE BOUNDARY

A useful comparison ends with a better question, not a fabricated verdict. State which missing source would help distinguish the alternatives in a real project.

01 / LOOK

Summarise the reason for comparing these cards.

02 / DO NOT ASSUME

The tray supplies no test results.

03 / ASK NEXT

Which source would change your understanding?

04 / KEEP ATTACHED

Preserve the selected page IDs in your export.

SW-019 / QUESTION / UNTESTED INSPIRATION

Ask about composition separately.

MAIN ART 10 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

If a real project needs composition information, that requires an appropriate source for the actual specimen. This template supplies neither a supplier declaration nor a verified material identity.

01 / LOOK

Treat the illustrated object as unidentified.

02 / DO NOT ASSUME

A visual resemblance is not a composition record.

03 / ASK NEXT

What reliable source would identify the real specimen?

04 / KEEP ATTACHED

Do not infer chemistry from the artwork.

SW-020 / QUESTION / UNTESTED INSPIRATION

Ask about conditions separately.

MAIN ART 10 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

Real material behaviour depends on context and appropriate evaluation. This folio gives no test setup, operating instruction or permission to use tools or equipment.

01 / LOOK

Name an application condition that is absent.

02 / DO NOT ASSUME

The workshop scene is not a technical procedure.

03 / ASK NEXT

Who is responsible for a suitable real evaluation?

04 / KEEP ATTACHED

Refer operational questions outside this template.

SW-021 / QUESTION / UNTESTED INSPIRATION

Ask about claims separately.

MAIN ART 11 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

Words such as durable, safe or sustainable require relevant evidence and scope. None is established by a bright studio picture or a local note in this index.

01 / LOOK

Spot a claim that would need support.

02 / DO NOT ASSUME

A reassuring label is not certification.

03 / ASK NEXT

What evidence and scope would make the claim meaningful?

04 / KEEP ATTACHED

Do not add unsupported certification language.

SW-022 / QUESTION / UNTESTED INSPIRATION

Ask about people responsibly.

MAIN ART 11 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

A real product inquiry may involve people and appropriate review. This fictional index needs no participant names, identifiers or personal information in its browser notes.

01 / LOOK

Keep the creative question impersonal.

02 / DO NOT ASSUME

Local storage is not a secure participant system.

03 / ASK NEXT

Can the question be written without personal details?

04 / KEEP ATTACHED

Do not enter sensitive participant information.

SW-023 / QUESTION / UNTESTED INSPIRATION

Keep an unanswered question useful.

MAIN ART 12 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

A question can be specific even when no result is available. State what is unknown and why the answer would matter, without inventing an outcome to make the page look complete.

01 / LOOK

Write the unknown in ordinary language.

02 / DO NOT ASSUME

An open question is not a failed measurement.

03 / ASK NEXT

What would an answer help someone decide?

04 / KEEP ATTACHED

Keep the missing evidence visible.

SW-024 / QUESTION / UNTESTED INSPIRATION

Choose the next source to seek.

MAIN ART 12 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

Identify a category of source that could help a real project, such as a relevant specification or responsible specialist. This page does not supply that source or assert its contents.

01 / LOOK

Name the type of missing source.

02 / DO NOT ASSUME

A planned source is not evidence already obtained.

03 / ASK NEXT

Who could verify that the source fits the actual context?

04 / KEEP ATTACHED

Label the action as a question, not completed research.

SW-025 / FILE / UNTESTED INSPIRATION

File the question with its boundary.

MAIN ART 13 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

A useful card keeps the inspiration, assumption and missing source together. Filing is an organisational step, not approval of a material, design or product.

01 / LOOK

Read all four slips before sharing.

02 / DO NOT ASSUME

A neat archive does not verify its contents.

03 / ASK NEXT

What context would be lost if only the picture travelled?

04 / KEEP ATTACHED

Retain the fictional-source label.

SW-026 / FILE / UNTESTED INSPIRATION

Keep the selected set visible.

MAIN ART 13 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

The pinned comparison tray records up to three page IDs. These are references to this folio, not specimen identifiers. Current exports preserve the chosen set with your edits.

01 / LOOK

Check which pages are currently pinned.

02 / DO NOT ASSUME

A saved selection is not a material recommendation.

03 / ASK NEXT

Does the selected set match your current question?

04 / KEEP ATTACHED

Unpin references you no longer intend to include.

SW-027 / FILE / UNTESTED INSPIRATION

Choose the right copy to share.

MAIN ART 14 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

Current HTML embeds the artwork, your text and private note. JSON records edits and pinned IDs. Original PDF/PPTX are fixed builds and do not automatically change when you edit the browser copy.

01 / LOOK

Check the version and private note before exporting.

02 / DO NOT ASSUME

Current and original exports are different copies.

03 / ASK NEXT

Which version contains the question you intend to share?

04 / KEEP ATTACHED

Do not share a private note unintentionally.

SW-028 / FILE / UNTESTED INSPIRATION

Correct the note, not the source.

MAIN ART 14 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

A text edit changes your explanation, not the underlying fictional illustration or a real test record. State the reason for an explanatory correction without implying new evidence.

01 / LOOK

Identify the sentence you changed.

02 / DO NOT ASSUME

A revised assumption is not a new result.

03 / ASK NEXT

What misunderstanding does the correction address?

04 / KEEP ATTACHED

Preserve the fictional and untested status.

SW-029 / FILE / UNTESTED INSPIRATION

Leave a responsible handoff.

MAIN ART 15 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

A handoff should explain the visual source, intended question and unresolved evidence. It should not imply that a supplier, specialist or user has approved a selection.

01 / LOOK

Name one creative intention and one limitation.

02 / DO NOT ASSUME

A shared folio is not external approval.

03 / ASK NEXT

What separate responsible work remains?

04 / KEEP ATTACHED

Keep the next question bounded.

SW-030 / FILE / UNTESTED INSPIRATION

A drawer can stay open.

MAIN ART 15 PENDING

Filing frame only, not a primary illustration. 9 of 15 independent artworks are present.

Fictional watercolour / not a tested specimen or supplier record / artwork pending

READ THE BOUNDARY

This draft contains nine of fifteen independent illustrations. The final six are explicitly pending. A useful closing card leaves a clear question rather than pretending the visual archive or real-world research is complete.

01 / LOOK

Review the current artwork count honestly.

02 / DO NOT ASSUME

Pending frames are not extra primary illustrations.

03 / ASK NEXT

Which source would help the next reader most?

04 / KEEP ATTACHED

Keep inspiration separate from evidence.
