01 / BRIGHT EDIT

Make the message easy to understand.

Figure 1 / fictional illustration, not evidence / curated image source in provenance.json

BRIGHT EDIT is a fictional messaging handbook for an imagined creative collection. It separates a clear invitation from a claim that would need evidence.

The aim is to practise coherent language across a headline, short description and next action.

The artwork suggests tone; it does not demonstrate product performance.

Copy and proof boundary

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

DRAFT MESSAGE	What should a reader understand after the first paragraph?
PROOF CHECK	No results, endorsements or testimonials supplied

What should a reader understand after the first paragraph?

02 / BRIGHT EDIT

Read the message system.

Figure 1 / fictional illustration, not evidence / curated image source in provenance.json

The handbook moves from audience question to message, proof boundary, tone, content formats and review. It is a document for writers, not a live campaign dashboard.

Pages 3–5 define the intended conversation. Pages 6–8 adapt it to formats and review claims. Pages 9–10 prepare a handoff and retain the source boundary.

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

DRAFT MESSAGE	Which section should a new contributor read first?
PROOF CHECK	No results, endorsements or testimonials supplied

Which section should a new contributor read first?

03 / BRIGHT EDIT

Use an audience question, not a stereotype.

Figure 2 / fictional illustration, not evidence / curated image source in provenance.json

Imagine a reader who wants to understand a creative idea quickly. This is a writing premise, not a researched persona or statement about a demographic group.

Do not invent personal characteristics or needs. Frame the task as a question the copy should answer, such as What is this and why might I explore it?

Copy and proof boundary

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

DRAFT MESSAGE	Which reader question can the text actually answer?
PROOF CHECK	No results, endorsements or testimonials supplied

Which reader question can the text actually answer?

04 / BRIGHT EDIT

Write one central message.

Figure 2 / fictional illustration, not evidence / curated image source in provenance.json

Suggested fictional message: Explore a clearer way to collect creative references. It describes an invitation rather than a guaranteed benefit.

Keep the promise smaller than the missing evidence. Avoid claims such as proven to improve results when no relevant study, product or measurement exists.

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

DRAFT MESSAGE	Which word makes the message stronger than its support?
PROOF CHECK	No results, endorsements or testimonials supplied

Which word makes the message stronger than its support?

05 / BRIGHT EDIT

Attach a proof boundary.

Figure 3 / fictional illustration, not evidence / curated image source in provenance.json

A photograph, illustration or attractive sentence is not proof of effectiveness. This case provides no customer results, test data or testimonial.

A useful proof note distinguishes an available demonstration from an outcome claim. Where a source is missing, keep the statement provisional or remove it.

Copy and proof boundary

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

DRAFT MESSAGE	What evidence would this sentence require?
PROOF CHECK	No results, endorsements or testimonials supplied

What evidence would this sentence require?

06 / BRIGHT EDIT

Use a recognisable voice.

Figure 3 / fictional illustration, not evidence / curated image source in provenance.json

The proposed voice is clear, curious and specific. That is an editorial direction, not a claim that every audience will respond positively.

Prefer concrete nouns and short explanations. A sentence can be warm without exaggeration, and confident without implying certainty about an untested outcome.

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

DRAFT MESSAGE	Which sentence could be made more concrete?
PROOF CHECK	No results, endorsements or testimonials supplied

Which sentence could be made more concrete?

07 / BRIGHT EDIT

Adapt without changing the promise.

Figure 4 / fictional illustration, not evidence / curated image source in provenance.json

A brochure paragraph, a short caption and an email opening can share one message while differing in length. The underlying evidence boundary should not disappear in shorter copy.

Write the long version first, then remove repetition rather than qualifications that affect meaning. Keep a link or note for context where the format allows it.

DRAFT MESSAGE	Which qualification must survive the short version?
PROOF CHECK	No results, endorsements or testimonials supplied

Which qualification must survive the short version?

08 / BRIGHT EDIT

Review the call to action.

Figure 4 / fictional illustration, not evidence / curated image source in provenance.json

A fictional call to action might invite a reader to view the concept or ask a question. It should not imply an available product, guaranteed offer or completed transaction.

The example contains no live checkout, price or promotion. State what the reader can genuinely do in the actual context before publishing a real campaign.

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

DRAFT MESSAGE	Does the requested action actually exist?
PROOF CHECK	No results, endorsements or testimonials supplied

Does the requested action actually exist?

09 / BRIGHT EDIT

Hand over the message set.

Figure 5 / fictional illustration, not evidence / curated image source in provenance.json

Share the headline, description, evidence note, tone guidance and unresolved questions together. A contributor should not have to guess which claim has been checked.

Label approved wording only after a real responsible process exists. In this exercise, all messages remain fictional drafts for discussion.

Copy and proof boundary

DRAFT MESSAGE	What should the next writer keep unchanged?
PROOF CHECK	No results, endorsements or testimonials supplied

What should the next writer keep unchanged?

10 / BRIGHT EDIT

Check claims before publishing.

Figure 5 / fictional illustration, not evidence / curated image source in provenance.json

Review every factual statement, implied outcome and quotation. Remove invented results and clearly identify visual inspiration.

This handbook does not supply a legal review or a compliance guarantee. A real campaign requires appropriate source checks and responsible editorial review.
