01 / SHIFT READY

Train a handoff, not a technical operation.

PRACTICE CHECK	NOT CERTIFICATION
[ ] Purpose / version	Identify the actual copy
[ ] Source / next action	What makes a handoff understandable to another reader?

What makes a handoff understandable to another reader?

SHIFT READY practises a source-aware document handoff. It is a fictional adult training example with no machinery, hazardous task or operational permission.

The learner practises checking purpose, version, source and next question before sharing a document. Completion of a worksheet is not certification.

Practice checkpoint

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

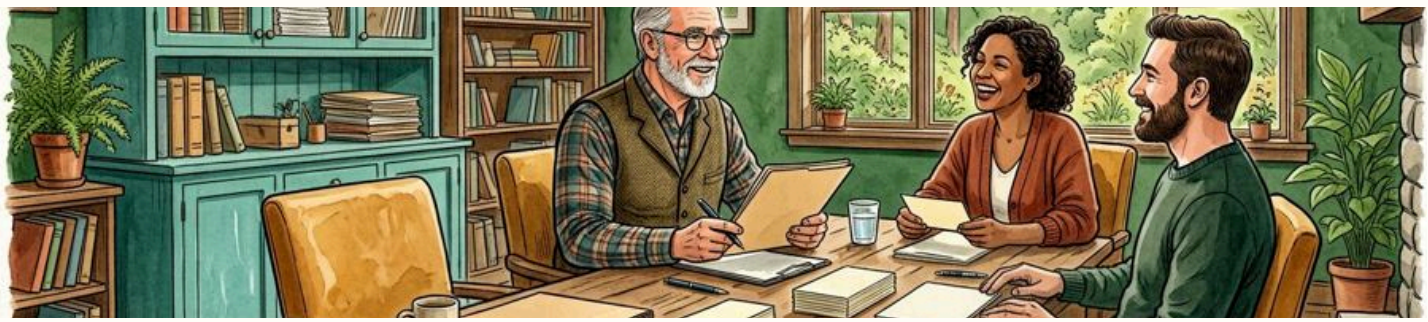

Figure 1 / fictional illustration, not evidence / curated image source in provenance.json

02 / SHIFT READY

Follow the practice sequence.

PRACTICE CHECK	NOT CERTIFICATION
[ ] Purpose / version	Identify the actual copy
[ ] Source / next action	Which practice step would you repeat?

Which practice step would you repeat?

Read the purpose, inspect an example, practise a check, compare a revision and rehearse the handoff. Return to an earlier step when context is missing.

The ten pages are learning sections, not a timed shift schedule. No employer, trainer or participant has been appointed by this template.

Practice checkpoint

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

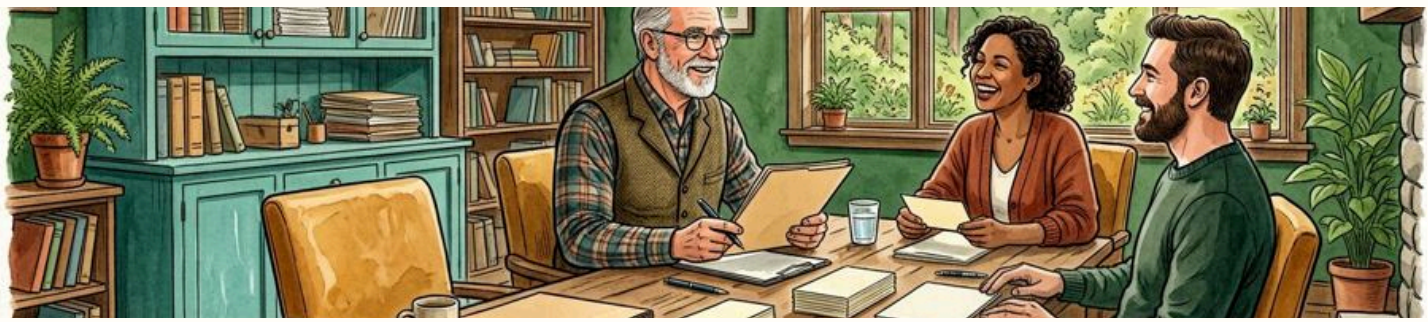

Figure 1 / fictional illustration, not evidence / curated image source in provenance.json

03 / SHIFT READY

Identify the document purpose.

PRACTICE CHECK	NOT CERTIFICATION
[ ] Purpose / version	Identify the actual copy
[ ] Source / next action	What response does this document actually request?

What response does this document actually request?

Before changing a file, state what it is for and who is expected to respond. A proposal, a draft note and an authorised record have different meanings.

The practice file is fictional. Calling it a final version would not make its claims verified. A clear purpose label reduces avoidable ambiguity.

Practice checkpoint

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

Figure 2 / fictional illustration, not evidence / curated image source in provenance.json

04 / SHIFT READY

Read the version label.

PRACTICE CHECK	NOT CERTIFICATION
[ ] Purpose / version	Identify the actual copy
[ ] Source / next action	Which copy are you about to share?

Which copy are you about to share?

A local file name is an organisational aid, not proof that the content is current. Check the document context rather than relying only on a confident title.

For the exercise, distinguish original source, edited copy and exported copy. Browser editing does not rewrite the original download automatically.

Practice checkpoint

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

Figure 2 / fictional illustration, not evidence / curated image source in provenance.json

05 / SHIFT READY

Keep the source with the statement.

PRACTICE CHECK	NOT CERTIFICATION
[ ] Purpose / version	Identify the actual copy
[ ] Source / next action	Which source supports the sentence you are checking?

Which source supports the sentence you are checking?

A factual statement should retain enough context for another reader to understand its origin and limitation. The training scene itself is not a source study.

In the practice example, rewrite A successful project as A fictional concept under discussion. The revised statement avoids inventing an outcome.

Practice checkpoint

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

Figure 3 / fictional illustration, not evidence / curated image source in provenance.json

06 / SHIFT READY

Use a short check without inventing approval.

PRACTICE CHECK	NOT CERTIFICATION
[ ] Purpose / version	Identify the actual copy
[ ] Source / next action	What does a checked box mean in this exercise?

What does a checked box mean in this exercise?

The practice check asks purpose, version, source and next action. Marking a box records what you checked, not that a responsible authority approved the document.

A real organisation may need a separate control process. This template supplies none and should not be presented as an audit or compliance system.

Practice checkpoint

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

Figure 3 / fictional illustration, not evidence / curated image source in provenance.json

07 / SHIFT READY

Escalate an unanswered question.

PRACTICE CHECK	NOT CERTIFICATION
[ ] Purpose / version	Identify the actual copy
[ ] Source / next action	Which question belongs with a reviewer?

Which question belongs with a reviewer?

When the source or authority is unclear, keep the question open and identify the type of responsible reviewer needed. Do not guess an answer to complete the form.

An escalation note should identify the passage and missing context. It does not require personal or sensitive participant information.

Practice checkpoint

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

Figure 4 / fictional illustration, not evidence / curated image source in provenance.json

08 / SHIFT READY

Practise a correction.

PRACTICE CHECK	NOT CERTIFICATION
[ ] Purpose / version	Identify the actual copy
[ ] Source / next action	What misunderstanding does the correction prevent?

What misunderstanding does the correction prevent?

Change one ambiguous sentence and explain why. Keep the correction separate from the evidence history so a reader does not assume new research occurred.

A useful correction might clarify that a number is fictional or a date is not supplied. Do not convert an assumption into a measured result.

Practice checkpoint

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

Figure 4 / fictional illustration, not evidence / curated image source in provenance.json

09 / SHIFT READY

Rehearse a two-sentence handoff.

PRACTICE CHECK	NOT CERTIFICATION
[ ] Purpose / version	Identify the actual copy
[ ] Source / next action	Write a bounded handoff in two sentences.

Write a bounded handoff in two sentences.

State the document purpose and version in the first sentence. State the open question and requested response in the second.

Example: This is a fictional concept draft for discussion. Please identify the source needed to clarify the stated assumption. No approval is implied.

Practice checkpoint

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.

Figure 5 / fictional illustration, not evidence / curated image source in provenance.json

10 / SHIFT READY

Record a learning reflection.

PRACTICE CHECK	NOT CERTIFICATION
[ ] Purpose / version	Identify the actual copy
[ ] Source / next action	What will you check first in your next handoff?

What will you check first in your next handoff?

Review which check was easiest to overlook and what reminder would help next time. The reflection belongs to this writing practice, not a real competency assessment.

Do not issue a passing mark or certificate from this template. Keep the next practice question visible and retain only information appropriate to share.

Practice checkpoint

Use this section to record a bounded response to the question below. Retain the distinction between the fictional example, your interpretation and any separate evidence a real use would require.
